

CANE[®]

GERMAN OUTDOOR FURNITURE

We have a wide range of umbrellas in various styles and sizes. Our umbrellas are built using the best materials to last for years to come. Several mounting options are available; choice of rope/lever and gear systems.

Windproof Umbrella: These umbrellas are designed to withstand harsh windy weather. The multi layers in the umbrella help bifurcate the wind, keeping it stable and sturdy.

Side Pole Umbrella: Our side pole umbrella helps save space as well as lends a stylish look to your environment.

Giant Umbrella: The giant umbrella size varies between 12-30 feet which helps cover a large area. Now it is possible for you to cover your restaurant /cafe with one umbrella instead of placing many small umbrellas. It can ideally be used to cover open –to sky restaurants and bars.

- ❖ Our all Parasols is made of powder coated aluminum bracket & ribs
- ❖ Pole will be in SS-304 grade pole.
- ❖ All nut bolt use in parasols will be SS 304 grade
- ❖ Movable Umbrellas Base will be made of powder coated GI sheet & filled by concrete or also made by granite slabs. So that will easily move.
- ❖ Canopy fabric will use DICKSON/SUNBRELLA SHADE which 100% polyester fabric. So that easy to wash it.

UMBRELLA SPECIFICATION

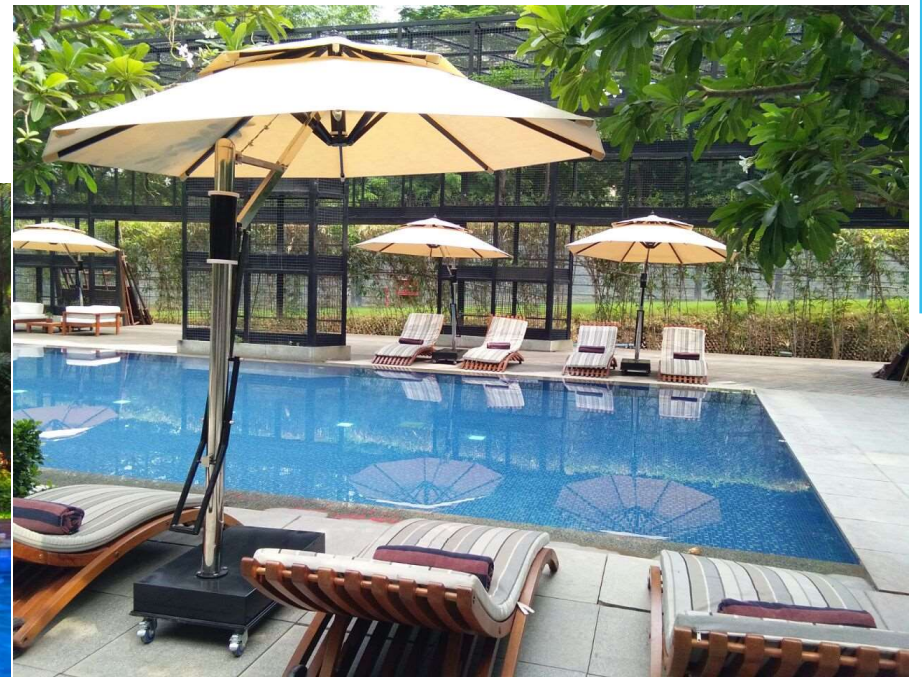

- ❖ Keep your Umbrella open only when in use **CLOSE IT** when not in use to protect it from Wind or damage due to falling.
- ❖ Garden Umbrellas are designed with high quality lightweight aluminum for easy operation and portability. **DO NOT** leave your Umbrellas unattended in the day time or night in high winds.
- ❖ Garden Umbrellas are fair weather products when the outdoor can be enjoyed. Leaving them open in inclement weather can cause breakage so **DON'T LEAVE THEM OPEN IN INCLEMENT WEATHER!**
- ❖ The Umbrellas should be firmly fixed in the Ground or in a heavy base to avoid the Umbrella from falling or flying off in the breezy weather.
- ❖ **DO NOT KEEP WINDING THE LEVER** of the Umbrella while opening it once the Fabric has straightened. Over tightening will snap the rope inside for winding and render the Umbrella non-functional.
- ❖ **DO NOT TRY TO REPAIR ANY PART OF THE UMBRELLA YOURSELF.** It might create further damage. You will have to send the damaged Umbrella to us for necessary repairs or replacement of parts.
