Specification

Cane India provides your businesses with **high-end sustainable rattan** that you can use to create beautiful, natural- looking furniture.

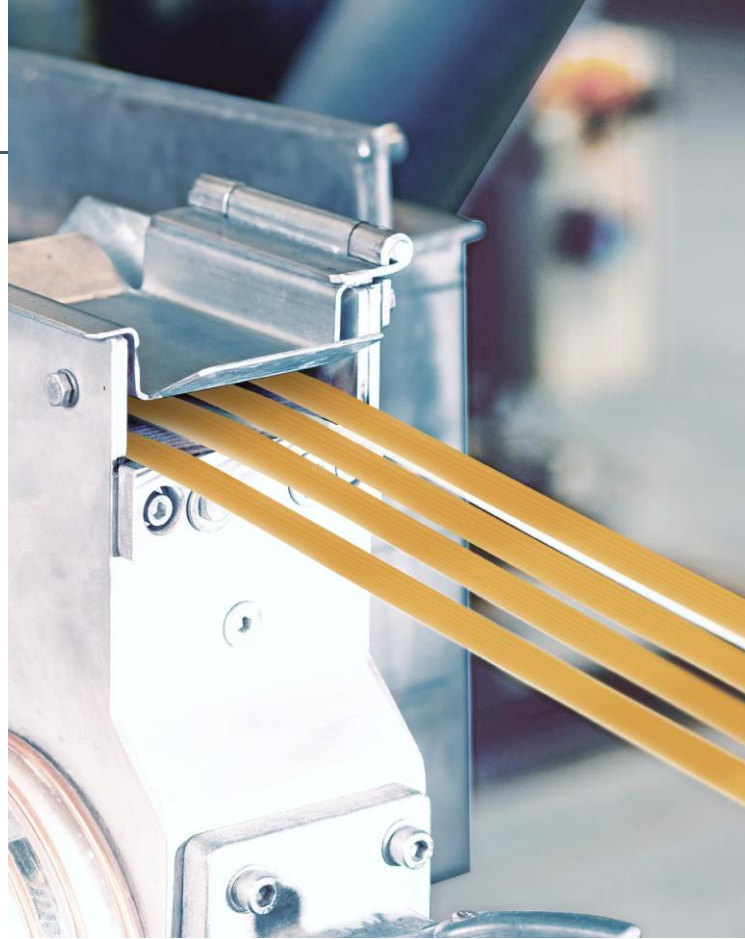

We specialize in manufacturing synthetic rattan materials with high sustainability and customized materials.

Why Cane India

Our Technology

The material is manufactured using renowned India engineering know-how and production technology.

Cane India has been active in polymer processing since 2017 and is one of the pioneers in designing and supplying all-weather rattan with more than six years of experience in this field.

Best Quality

Due to its superior characteristics, Naturra weaving material offers a carefree outdoor experience:

- UV resistant
- Weatherproof and temperature resistant
- Strong and durable
- Maintenance-free and easy to clean
- Non-toxic and environmentally friendly
- Colourfast and scratch-free

Sustainable Materials

The pace of global change is increasing every single day. At the same time, the public has become extremely sensitive to issues of sustainability. Using raw materials sparingly and efficiently has also always been in the DNA of Cane India. Both help limit consumption of energy and resources significantly.

We have also used recycled materials for decades now. The proportion of recycled materials in our products is around 50% higher than the global average.

Our Products

Cane India Core Collection

Cane India Collection allows you to order small quantities from 40 kg – perfect for new customers. If you can not make a decision, we will help you to decide by introducing CANE INDIA COLLECTION which includes our most popular colors.
