Application / Aplicaciones

Warranty / Garantía

The Acrisol warranty covers an abnormal deterioration of the fiber due to the loss of color or resistance whenever there are normal exposure conditions, including sun, mold, rot and atmospheric agents in general, and as long as the fiber has been installed, used and maintained correctly. The guarantee does not cover the installation work of the distributor, it only replaces the affected tissue footage.  
The warranty also does not cover, in any case, the deterioration due to abusive use, accidental burns, negligence or perforation.
