Your imagination starts with our finish

AkzoNobel

Interpon D RTS Architectural Range

Quality, performance and style at your doorstep

Interpon powder coatings comprise the most comprehensive range of on-trend premium colors, textures and finishes to help the architectural world realize their most imaginative designs. All products are Ready to Ship (RTS) for your convenience.

Recognized and respected for their quality, performance and style which is always on trend, our Interpon D Architectural range is the stand-out performer on a global stage. Our unique metallic and solid finishes in different gloss levels and fine textures are specially developed for architectural projects of any size, big or small.

Leading benefits

We have a portfolio of standard durable (Interpon D1036) and superdurable (Interpon D2525) products to suit different uses, applications and environments, to protect the integrity and appearance of surfaces from the weather and everyday wear and tear.

Interpon powder coatings help you imagine and create, and being a global leader means our experts have been at the forefront of developing on-trend colors, finishes and effects for more than half a century. Our innovative range of powder coatings help your creations stand the test of time, with highly durable products that protect and enhance even in the most challenging environments.

Transparency and reliability

Building a sustainable future

The Interpon D Architectural RTS range is not just helping us to imagine the future; it is also protecting it. Backed by an Environmental Product Declaration (EPD), the raw materials, manufacture and transportation associated with creating Interpon D have been assessed by an independent third-party for transparent sustainability credentials.

Creating futures that last

You can rely on us. Our Interpon D RTS range delivers on its promised durability levels in terms of color retention and film integrity.

- Offering up to 15 years global warranty on the coating performance for the Interpon D1036 range and up to 25 years global warranty for the Interpon D2525 range when applied by an Interpon D Approved Applicator.
- Qualicoat Class 1 for the Interpon D1036 range.
- Qualicoat Class 2 for the Interpon D2525 range.
- Meets the performance requirements of AMAA 2603 and AMAA 2604 as well as BS EN 122206.

D2525

Bonded Metallic Shades

Our special breakthrough bonding technique is unique to AkzoNobel in India. It significantly improves the luster and finish of our premium special effect metallic powder coatings to deliver even greater color consistency and performance, while avoiding the picture frame effect when applied. As a powder coating, Interpon is free from VOCs, and any overspray can be reclaimed and reused, further improving its sustainability credentials for those seeking to create impressions and futures that endure.
